#### Site Update:

Little Airfield Lease Renewal Update– Scott Gantt

New Site Lease Negotiations – McCracken property 8805 Morgan Mill Rd. (Hwy 218 and 200)

Next Steps: 1) negotiate with landowner and finalize lease requirements including structure placements; 2) determine land-use rules of the landowner including safety requirements; 3) gain approval for on-site move date (March 1); 4) appoint site plan committee:

To use the planning model of a "Master Plan" that is done over time and in phases.

**First phase** is to get it moved (metal sheds, stands/tables, fencing, sandbox, secure a new swing-set, non-permanent storage shed), and start the runway, improve the drive, and develop the parking areas. That's just phase one. And it is the simple move.

**Next** is to design the site on a clean sheet of paper where the club creates a vision for what it will look like in 5 years. Sub-divide that into prioritized workable phases with costs. Each phase becomes a goal and it is executed upon. Dreams become reality over time

*A lot of work has to occur and we will use club volunteer labor to do as much as possible that will not put members in harm's way.*
